

please find the following commercially available versions that are believed to satisfy the Examiner's request:

Pro/Intralink Documentation Release 3.0

Pro/Engineer 2000i Documentation

Pro/Engineer 2000i Collection of Help Topics English and
European Languages

Pro/Engineer 2000i Part Modeling Topic Collection (PDF)

All of the above are on CD-Rom format as the printout of the various documents is likely to exceed hundreds if not thousands of pages. Applicants do not believe that the requested documentation is necessary for the Examination of the Application but are providing the material because of the Examiner request contained in the Office Action of November 29, 2002.

Also enclosed is a printout of the entirety of chapter 3 of the Pro Engineer Part Modeling Users Guide Release 20.0, revision date June 1998 (three pages of which were previously provided to the Patent Office in a Supplemental IDS referencing the three pages). Applicants note that the revision date of the Part Modeling User's Guide is less than one year prior to the filing date of the Application. Applicants have additionally enclosed a copy of the entire table of contents of the Part Modeling User's Guide Release 20.0 for the Examiner's consideration and will forward any additional information requested by the Examiner.

CONCLUSION

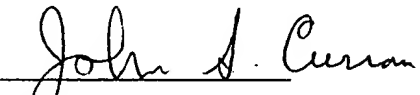

Following the submission of the enclosed information, Applicants await a reply to their previous Office Action response which we believe place the pending claims in condition for allowance. Applicants believe they have responded to the Examiner's request for information pursuant to 37 C.F.R. 1.105, but in the event additional
